

MEDICAL PACKAGING INC., LLC

Pak-EDGE™ UD BARCODE LABELING SOFTWARE

DECREASE PACKAGING COSTS

INCREASE OPERATIONAL EFFICIENCY

REDUCE MEDICATION ERRORS

Advanced barcode labeling software for Medical Packaging Inc., LLC (MPI)'s Bar Code-Plus® suite of packaging solutions is now optimized for use with Microsoft Windows® 10 or higher. Designed to increase operational efficiency and reduce medication packaging errors, Pak-EDGE™ UD Barcode Labeling Software is optionally integrated with the First DataBank® drug data, imprints, and images database* to assist the hospital pharmacy with compliance to Joint Commission Standards and National Patient Safety Goals.

SAMPLE PACKAGING SCREENS

Also available in Spanish, French and Portuguese.

Advanced Bar Coding Capabilities and Configurations

1D and 2D Barcode Capabilities including Data Matrix, Aztec and GS1 formats. Automatically generates 11 Digit NDC's.

Enhanced Tall Man Lettering option searches for every occurrence of the drug and automatically prompts the user to accept Tall Man lettering suggestions.

Automatic Calculation of Default Shelf Life and Short Term Calculations including suggested expiration options for exact day or last day of the month. Calculated date will never exceed the shelf life of the medication.

Advanced Barcode Builder allows users to add fields and delimiters to create complex linear or 2D barcodes. May include expiration date and lot numbers or any combination of fields.

Built-in Serialization Feature allows users to print individual packages with a unique serial number and barcode in compliance with the Drug Supply Chain Security Act (DSCSA).

Enhanced Security, Password Controls and Reporting

Tiered Security Levels provide additional safety in packaging by establishing password and security controls at three separate levels – Technician, Verifier and Administrator.

Approval Batches: Print jobs, library additions and post checks can be queued for approval.

Comprehensive Management Reports including: Daily Brief, Daily Detailed Report, Custom, Totals

Digital Package Retention Feature retains digital image of package label as it was printed.

Lot Traceability for drugs and materials.

Automatic system back-up feature.

Welcome Screen keeps user informed of on-line updates, recent news and feature enhancements.

Master Drug Formulary Accessing First DataBank® Drug Data, Imprints and Images Library

Single Drug Library with comprehensive sorting and search capabilities.

First DataBank® includes:

- Source Drug Library including:
 - Generic Name, Trade Name, Strength, Measure and Form, NDC #, Manufacturer Name, Control Number, Drug Class Code
